
Contents

Unit V — Drug Analysis

Section 1	Processing a Powdered Drug Sample Notes	77
Section 2	Investigation: Microscopic Analysis of Known and Unknown Powders	83
Section 3	Investigation: Qualitative Test - Microcrystalline Test	87
Section 4	Investigation: Presumptive Test - Color Test	90
Section 5	Investigation: Quantitative Analysis Through Extraction	93

Unit VI — Hair and Fiber Analysis

Section 1	Investigation: Microscopic Analysis of the Medulla	97
Section 2	Investigation: Examination of Hair Scale Patterns and Hair Roots	102
Section 3	Investigation: Fabric Examination	106
Section 4	Investigation: Microscopic Analysis of Fibers	108

Unit VII — Bloodstain Pattern Analysis

Section 1	Investigation: Bloodstain Pattern Analysis	114
Section 2	Investigation: Direction of Travel, Area of Convergence and Angle of Impact	116
Section 3	Follow-up Investigation: Direction of Travel, Area of Convergence and Angle of Impact	119
Section 4	Investigation: Effect of Distance, Surface Type and Angle	121
Section 5	Investigation: Small Scale 3-Dimensional Representation of Bloodstain Pattern	126

Unit VIII — Document Analysis

Section 1	Investigation: Handwriting Analysis - Handwriting Development	131
Section 2	Investigation: Handwriting Analysis - Ransom Letter Investigation	133
Section 3	Investigation: Ink Analysis - Paper Chromatography.....	137

Unit IX — Impression Evidence

Section 1	Investigation: Differentiating Between Casts and Molds	142
Section 2	Investigation: Tire Track Analysis	144
Section 3	Investigation: Casting Impression on a Small Scale	149
Section 4	Investigation: Casting Impression on a Small Scale	151

Unit X — DNA Analysis

Section 1	Investigation: Preparation for DNA Analysis	154
